

1

SUMMARY

- Use memory and strategy to collect Itty Kitty and matching Desire cards.

SETUP

- Shuffle the deck a few times and deal 4 cards to each player's "Paw" (hand).
- Place 15 cards face down in a 5 wide by 3 high grid of cards.

CARDS

There are 2 types of Cards:

Kitty

Desire

- **Kitty Cards** - These depict Nooki the kitty thinking about what she wants (desires).
- **Desire Cards** - These are the things Nooki wants.

TURN

The goal is to match Kitty and Desire cards in your paw with those in the grid.

- Start by turning over 2 cards in the grid.
- Match as many valid cards in your paw as you like.
- You may match a Kitty card with a Desire card (and vice-versa) as well as duplicates of the same type.
- Put cards you match into your "Kitty Bed" (win pile) only when there is both a Kitty and a Desire card together in grid stack.
- If there are only duplicate Kitty cards or duplicate Desire cards in

2

a stack, you should leave these cards where they are.

- Any single face up cards should be turned face down. Leave stacks of face up cards, however (e.g. 2 heart cards).
- Replenish the Grid then your Paw:
 - **Replenish Grid** - Place card(s) from your paw and/or the deck face down to replenish any missing grid card spots.
 - **Replenish Paw** - Draw from the deck to replenish your paw back to 4 cards (if necessary).
- Your turn is over. The next player should begin their turn.

ENDING THE GAME

- Choose the ending conditions for your game:
 - **Empty Paws** - Once a player's paw is empty, the game is over.
 - **Grid Marks** - When no more grid cards can be played (e.g. no possible matches), the game is over.
- Whoever has the most cards in his/her Kitty Bed wins!
